405210

Long-sleeve microfiber chef's jacket with Coolmax® fabric back

Fabric

Front: Microfiber.

100% polyester
140 gsm

Back: Coolmax®.

100% polyester
135 gsm

Coolmax® fabric makes garments a reliable choice for kitchen professionals, as it helps evaporate moisture and promotes breathability, having been designed to create a circulation system that moves moisture from the skin to the outer layer of the fabric while regulating the user's body temperature.

Fabric developed by Velilla Group

Smart Microfiber

Smart Antimicrobial Protection

High-performance Smart Microfiber® **technical fabric, designed to provide maximum comfort, softness, breathability, hygiene, and durability.**

It incorporates SilverPlus® treatment, which acts as an antibacterial agent and ensures freshness and protection throughout use.

Repels water and other liquids, preventing absorption

Evacuates water vapor ensuring efficient thermal regulation

Antibacterial treatment that prevents bad odors.

Wrinkle-resistant properties that reduce care and ironing time

Antibacterial treatment with silver ions that prevents the proliferation of bacteria and the formation of unpleasant odors.

Washing instructions

Max temp. 30°C
Do not bleach
Iron max. 110°C
Do not dry clean
Do not use the dryer

Recommended printing techniques

Transfer

Screen printing

RET Values

RET 1,4

RET: measures the breathability of the fabric; the lower the RET value, the higher the garment's breathability.

Pilling Values

4-5

Pilling: measures the fabric's resistance to abrasion on a scale from 1 to 5. The higher the value, the greater the resistance.
