This fabric offers an excellent balance between durability, comfort, and elasticity.

- Polyester provides durability, dimensional stability, quick drying, and is essential for maintaining the intensity of fluorescent color, allowing compliance with the EN ISO 20471 high-visibility standard.
- Cotton improves breathability and adds softness against the skin.
- Elastane adds flexibility, promoting freedom of movement and ergonomic fit.

Tapes developed by Velilla Group

This segmented and heat-sealed reflective tape offers optimal visibility in low-light conditions. Its heat-sealed application ensures perfect integration with the garment, without seams, resulting in a more pleasant and comfortable surface to the touch.

Additionally, it is certified to withstand 50 washes at 60°C, maintaining its reflective properties and original appearance even after prolonged use.
